**Detailed Action**

**Claim Objections**

1. **Claim 1** objected to because of the following informalities: "therebetween" should be inserted after "distances" (L 13). Appropriate correction is required.

**Claim Rejections - 35 USC § 112**

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. **Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.**

**Claim 1** is indefinite when indicating that to strips thereby secure the oil grooves between the segments (L 16-17). Also, are the strips are at opposite ends of the friction member material (L 15-16)?

**Allowable Subject Matter**

4. **Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.**

5. The following is a statement of reasons for the indication of allowable subject matter: **claim 1**, the prior art of record does not teach making a plurality of cuts in at least one band-shaped friction member material lengthwise to form strips, retaining the strips with distances therebetween corresponding to the oil grooves being formed between adjacent strips, cutting off a portion of a tip end of at least one of the strips, and superposing friction member segment correspondence portions froming the tip ends of the strips to an annular flat surface of a core plate having an adhesive applied

thereto, and cutting the portions away from the remaining portions of the strips where the segments portions are applied simultaneously.

6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
